

GRANITE ALPINE STAR

Honed 800 x 400 x 12 Tiles

Perfect in a light and bright colour scheme, this granite can be used as a highly durable base layer. This stone features plenty of natural variation within its flecked veining. It has warmth, that will pick up warmer colours and pair beautifully with blonde timber tones; as well as a mid-range grey tones that will tie in well with any darker colours you are using to define your space.
