

LIMESTONE PROVENCE

Enhanced Tumbled French Pattern Paving, nominal 25mm

With its luminous tawny gold colouring and a timeless weathered texture, this versatile stone has an understated style that adds a 'lived in' natural warmth to your space. Suitable for both internal and external applications, this stone is as comfortable in the countryside as it is by the beach.

Supplied in sets of five different square and rectangular sizes, this French pattern has also been tumbled, to add to its provincial character.
