

STAIN PROTECTOR

ChemForce - Oil and water repellent, silane-based - 5lt

Stain Protector™ is an Australian owned and made premium impregnating sealer with world-leading protection for stone and other porous surfaces. It offers maximum water and oil repellence for optimal stain protection and super-penetrating, permanent bonding technology for superior protection against, efflorescence, picture framing, salt spalling, freeze-thaw spalling. It is highly breathable, allows water vapor to escape freely, and limits harmful moisture build up inside the treated material. Treated surfaces maintain their appearance for longer and are easier to clean.
