

BLUESTONE OLD ADELAIDE

Split Face Dressed Edge Random Ashlar Blocks

Referencing many of our traditional buildings, this bluestone's character is at home in many of South Australia's suburbs. The autumn tones and rugged finish allows this stone to carry on the tradition of South Australia's heritage buildings, making it ideal for both restoration projects and character new builds.

Natural stone blocks are nominally between 95-110mm thick so can be used like a brick as a construction element. Please note minimum quantities and extended lead times may apply, contact us for more information.
