

LIMESTONE MT GAMBIER

Smooth 660 x 240 x 100 Blocks

One of our local South Australian natural stone options, the prevalence of limestone in the region where the Limestone Coast's name is derived from. These natural stone blocks are a chalky white colour, with a porous texture. Depending on the environment you use it in, it will usually develop a patina over time.

Please note limited quantities are available, contact us for more information.
