

SANDSTONE SA BASKET RANGE

Textured Random Lengths, 76, 162, 248mm (H) Blocks,
nominal 110mm + protrusion

One of our local South Australian natural stone options, this sandstone comes out of the Adelaide Hills. A coarse grain sandstone, this dimpled textured face option slightly mutes the natural colours that exist in the stone.

Natural stone blocks are nominally between 95-110mm thick typically used like a brick as a construction element. Basket Range Sandstone is quarried to order, contact us to find out lead times
